# Grateful Patient

A way to say thanks

# A Patient's Gift of Gratitude

The relationship you share with your healthcare professionals is a special and unique bond. You trust these individuals and in return, they advocate for your health and uncover answers to your most vulnerable questions.

If you would like to thank a UPMC Northwest employee for all they did for you or someone you love, consider the Grateful Patient Program.

Your donation doesn't just recognize exceptional healthcare professionals in a permanent and significant way, it also supports the work they do, from helping purchase the latest technologies to funding continuing education.

## How Your Gift Helps

By making a gift of any amount in your healthcare professional's honor, you will help UPMC Northwest continue that same compassionate and essential care for others in the community.

Your donation supports new technology, equipment, and facilities. It also advances the education and training of our dedicated team of healthcare professionals.

## The Benefits of Your Gift

Simply complete and return the attached reply card along with your personal message of thanks. We will make sure they receive your message and learn of your generosity. This is your opportunity to recognize the people who draw your blood for testing; the nurses that serve and administer medications; the dietary and support staff that feed and disinfect; transporters who ensure you reach your destination; surgeons that treat...and many others.

Because of your support, the person you name will be recognized with a special pin that they can wear proudly. But most importantly, you will inspire that person even more to give future patients the commendable care that you received.

*Continued to back.*
